## About Us

---

We have been operating in the field of poultry equipment with our 20 years of poultry sector experience and knowledge.

For the needs of the whole poultry sector; feeding, irrigation, heating, ventilation, cooling, lighting, feed silos, feed transport systems, egg cages and computerized control systems. Thanks to our qualified and experienced technical staff, it continues to be with you at every step of the project starting from the project stage.

Our poultry equipment, domestic and abroad; products are preferred with diversity, quality and technical team, sales and after-sales services.

Our aim is to create useful and lasting values for our customers with our reasonable price policy by combining quality materials with quality workmanship. Our young dynamic staff, innovation curiosity and technical research skills have enabled us to gain the trust of all our customers.

System equipment sets, honest, hardworking and when operating without compromising quality production of experienced staff, the quality of all opportunities for the poultry industry, for example, and leaders in Iran, is a recognized brand in the world.

## Mission

---

- Continuously creating new values for our customers, employees, partners and society,
- Honest employee in compliance with laws and business ethics,
- Use resources efficiently,
- Offering quality products, reliable and constantly developing,
- Developing talents, encouraging participation and teamwork in a good working environment, value its employees,
- High social responsibility and environmental awareness,
- Developing and developing with the aim of cooperation with suppliers,
- Adopting modern woolen techniques,
- We want to be perceived in the poultry sector as a competitive company that creates sustainable profitable growth.

## Vision

---

As Rooster, our aim is to provide the Iran manufacturer with the latest technology in Europe and the world, to make it more profitable production, thereby increasing the competitiveness of the Iran manufacturer in the domestic and foreign markets.

To become a permanent brand in poultry equipment systems in the world.
